Common Name	Native & Organic	Botanical Name	Bloom Time	Characteristics	Benefits	Flower Color	Size: Spacing x Height x Bloom Height	Description	1 gallon	2 gallon	3 gallon (#10)	
Grasses/Ferns/Sedges												
Side Oats Grama	*	<i>Bouteloua curtipendula</i>	Jun-Nov	Sun, Part shade	Attracts: Butterflies	Red, orange, Yellow	1-3 ft.	State grass of Texas. A bunchy or sod-forming grass with 2-3 ft. stems in erect, wiry clumps. This medium-tall grass mixes well in plantings with spring wildflowers, because it stays short in the spring. Birds love the ripe seeds.	\$ 12.00	N/A	N/A	
Texas Sedge		<i>Carex Texensis</i>	Mar-May	Sun, Part shade		NA	10-12"	One of the most common sedges in central Texas; is a good turf substitute for dry to moist shade. Its fine-textured foliage mixes nicely with other small, shade-loving plants.	\$ 10.00	N/A	N/A	
Inland Sea Oats		<i>Chasmanthium</i>	Jun-Sep	Part shade, Shade	Attracts: Butterflies	Green	2-4 ft.	An attractive, dense-covering grass for shade, with decorative seedheads. Also good in pots.	\$ 10.00	N/A	N/A	
Cup grass	*	<i>Eriochloa sericea</i>	May-Oct	Full Sun		NA	1-3 ft.	The flowers (florets) of grasses are often minute and therefore not visible to the naked eye.	\$ 12.00	N/A	N/A	
Gulf Muhly		<i>Muhlenbergia capillaris</i>	Sept-Oct	Sun	Aesthetics: Interesting foliage	Raspberry Pink	3-4" x 3" x 4"	Very popular native grass, with narrow hair-like leaves that arise from a basal clump. Clouds of brightly colored cotton candylike panicles stand above the foliage. Tolerant of a wide variety of soil conditions, must be well drained. Very popular.	N/A	N/A	\$ 20.00	
Mexican Feather Grass		<i>Nassella</i>	Jun-Sep	Sun, Part shade	Aesthetics: Interesting foliage	White	1-3 ft.	Useful as a low-growing, graceful accent grass in landscaping. Popular in landscaping for its delicate, thread-like leaves that billow gracefully in even the slightest breeze.	\$ 10.00	N/A	N/A	
Little Bluestem- Haskell	*	<i>Schizachyrium scoparium</i>	Jun-Dec	Sun, Part shade	Attracts: Butterflies	White, Green, Brown	2-4 ft.	A very ornamental bunchgrass with fine-textured foliage that forms very dense mounds 18-24 in. in height. Slender, blue-green stems, appearing in August, reach 3 ft. by September and become radiant mahogany-red with white, shining seed tufts in the fall. Color remains nearly all winter.	\$ 12.00	N/A	N/A	
Wavy cloak fern		<i>Cheilanthes sinuata (Astrolepis sinuata)</i>	NA	Sun, Part shade	Aesthetics: Interesting foliage	NA	1-3 ft.	This fern is semi-evergreen with thick green fronds the undersides of which are cinnamon in color. Not a flowering plant; reproduces by spores.	\$ 10.00	N/A	N/A	
Southern Wood Fern		<i>Thelypteris kunthii</i>		Partial Sun, Shade, Ground Cover, Tolerates Wet Soil	Aesthetics: Interesting foliage			The hardiest and most commonly grown fern in our area. Spreads by underground runners. Deciduous light green foliage.	\$ 10.00	N/A	N/A	
Vines/Yuccas												
Carolina Jessamine		<i>Gelsemium sempervirens</i>	Dec-May	Sun, Part Shade	Attracts: Butterflies, hummingbirds, honeybees	Yellow	10-20 ft.	An aromatic, showy evergreen vine with ornamental blooms and glossy leaves.	\$ 10.00	N/A	\$ 20.00	
Coral Honeysuckle		<i>Lonicera sempervirens</i>	Mar-Jun	Sun, Part shade	Attracts: Butterflies, hummingbirds, bees	Red, Yellow	15-20 ft.	High climbing, twining vine with flowered clusters of red, tubular blooms followed by bright-red berries. This beautiful, slender, climbing vine is frequently visited by hummingbirds. Not too aggressive.	\$ 10.00	N/A	N/A
